Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

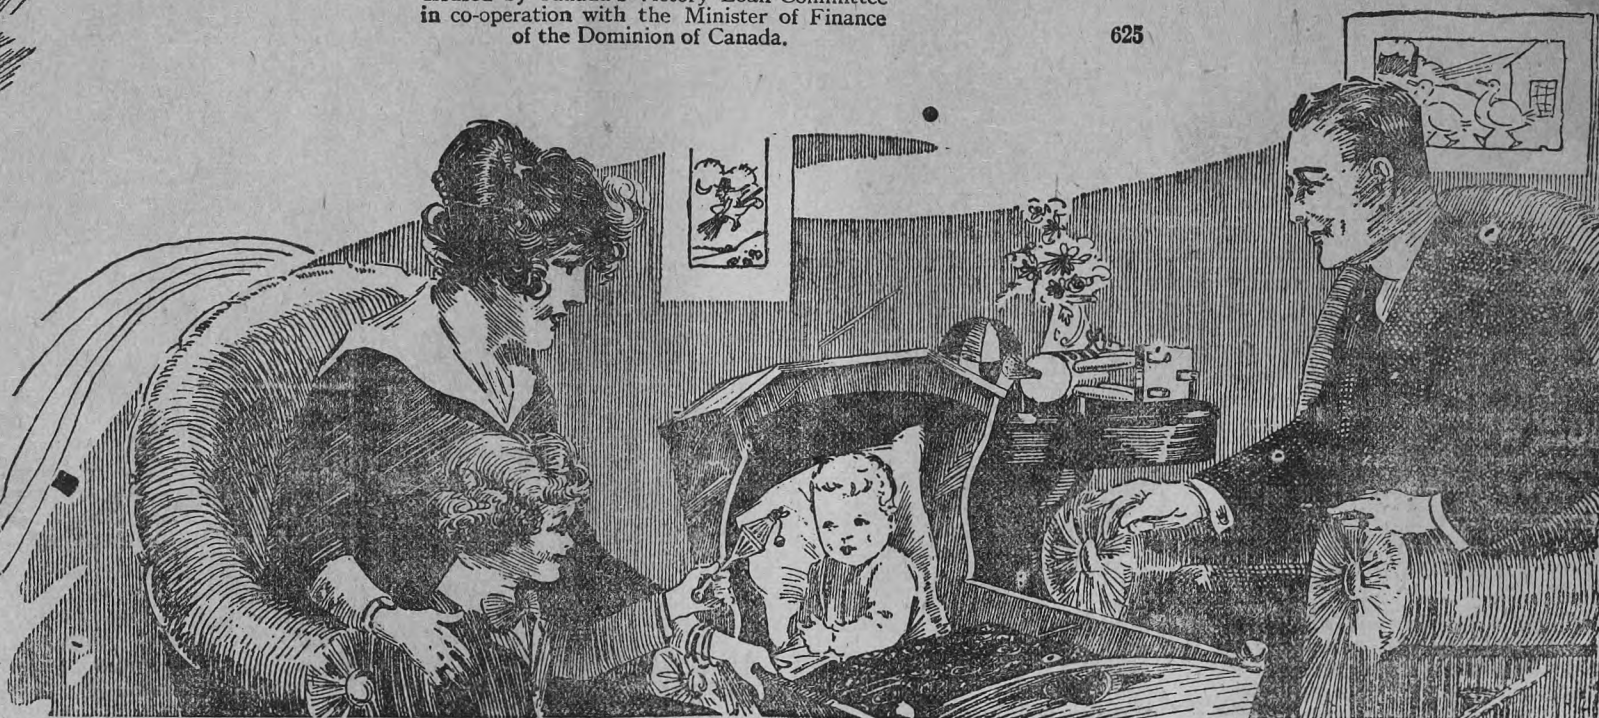

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

Buy Victory Bonds For Your Children

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

INTERESTING NOTES OF LOCAL HAPPENINGS DURING THE PAST WEEK

BORN—to Mr and Mrs L. E. Roy, Thursday, November 6th 1919, a son. Mother and child doing well.

We are glad to note that Dorothy Saul is now convalescent.

Mr Sims, principal of the Chauvin public schools, was a visitor to the convention at Edmonton during the past week.

Coal cars reaching Chauvin are being unloaded in record time. Those who need coal will be well advised to

get their supply early. Shortage of coal already prevails in several parts of the province.

The register at the Killarney Hotel contains a larger number of names than might have been expected considering crop and climatic conditions.

Mr and Mrs Dave Dundas were visitors to Edmonton last week.

Divine service will be held at Killarney next Sunday afternoon, conducted by Mr Mitchelson, our new

missioner. Mr Mitchelson comes from Perth, Scotland, having spent the past eighteen months in Quebec.

Visitors to the Chauvin Chronicle office are always welcome. When you bring the boys and girls to town, we can show them the Linotype machine—this is the machine that is used by all Canadian daily papers for setting the type.

Mr Battie will at all times be glad to furnish you with particulars regarding the Victory Loan, and receive your ap-

plication.

Mr. Walter Pritchett, of Fram was a visitor in Chauvin Saturday and Sunday.

Mr. B. Nicholson, of Dina made a special trip to Lloydminster last week to bring home his wife and new son.

Among the visitors to Chauvin this week is 911r old friend Sam. Just as bright and cheerful as ever. It appears that life 'on the road' agrees with him. He informs us that his

wife and family are enjoying the best of health.

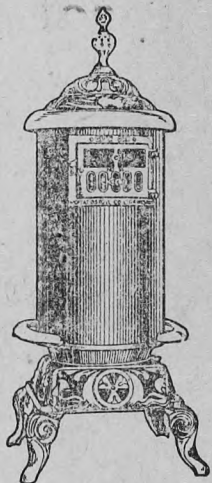

Mr. F. Kilpatrick is visiting Chauvin. He expects to here about one month, having several items of business to attend to. We are glad to report that Mr. Kilpatrick is enjoying much improved health.

The cold weather continues and little flurries of snow come frequently.

Have you purchased your 1919 Victory Bond yet—do not delay longer.

The Tallow Dip And The "Black Salt"

Rather more than two hundred years ago, Lady Edgworth, the wife of Sir John Edgworth, lived at a place called Castle Lizard. Now, in those days, there was much disturbance in Ireland and little law; and though there were guests staying at Castle Lizard they knew the house might be attacked, so that a barrel of gunpowder was always kept in a loft. One evening there was an alarm. The men got their guns, and Lady Edgworth hurried up to the loft to bring

down some powder. for in those days there were no cartridges, but you had to drop the powder into the barrel of the musket and ram the bullet down with a ramrod. She took with her a young servant to carry the light, which was nothing better than a spluttering tallow candle, without a candlestick, as was common enough at that time. But Biddy, the maid knew nothing about gunpowder, and when Lady Edgworth had got half way down the stairs again there was Biddy coming behind her with no candle.

"Biddy," said Lady Edgworth "where's the candle?"

"Sure, and I left it," says Biddy. "sticking in the barrel of black salt."

Now, even the kind of wax candle that we use would have been dangerous enough, but the old tallow candles shed sparks much more easily. If a spark from that candle reached the "black salt" there would be a fearful explosion; half the house would be blown down, and many lives lost. Straight into the danger sped Lady

Edgworth. She darted upstairs to where the candle stood spluttering and flaring, lifted it with firm fingers, and carried it out of the room. Neither she or anyone else got any hurt, so her golden deed was by no means in vain. The heroine herself lived to be ninety years old and was the ancestress of Marie Edgworth.

The Cat, The Eagle And The Sow

High among the branches of an old oak-tree an eagle was rearing her young. A cat and her kittens dwelt in a hole in the middle and a sow with her little pigs sheltered in a hollow at the bottom of the tree. One day the cat climbed up to the eagle and said:

"My good neighbour, we are in great danger. That dirty sow below is digging at the roots of this tree so that she can overthrow it and get at our young ones. You must do as you please, but I for my part, intend to stay at home and watch what she does."

The eagle was very frightened and the cat then left her and visited the sow.

"I hope, neighbour," she said, "that you do not intend to go abroad today."

"Why not?" asked the sow.

"Oh," replied the sly cat, "I overheard the eagle promise her young a fine young pig for dinner the first time she saw you go out! I must hurry home for she may fancy one of my kittens."

From that time the cat always went out for food by night, so that the eagle and the sow should think that she kept careful watch. Accordingly they, too, kept at home. The result was that their young were all starved and became prey to the cat and her kittens.

Some Riddles

The Cat, The Eagle And The Sow

Why are pianos noble characters?
Because they are grand, square and upright.

Why was the elephant the last animal to enter the ark?
Because he had to stop to pack his trunk.

"Yes, I've a good memory, I once won a medal for remembering things"
"Who gave it to you?"
"I forget!"

What is it that grows in the wood, sings in the town, and earns its maker many a crown?
A fiddle.

What is it that which has many teeth, yet which never eats anything?
A comb.

If a church clock struck thirteen, what time would it be?
It would be time to get the clock repaired.

Why do copper miners like the letter M?
Because M turns Ore into M-ore

What is it that turns without moving?
Milk, when it turns sour.

Head quarters for stationery of quality, School Books, School Supplies, games, toy books, and novels.

Local Notes of Interest

Mr J. R. McCarghy, 28-42-3, seven miles south of Ribstone is having an auction sale Wednesday November 17th. He is offering the land, eighty acres of which are broken, balance is good range for cattle. Two geldings. Eight head of choice cattle. Eight pigs. A quantity of farm machinery and a good selection of household effects. Terms of sale: Horses and machinery, October 1st 1920 Cattle and household effects, half-cash. Hogs cash. Sums under \$15.00 cash. Credit will be given to October 1st 1920 on approved joint notes, bearing bank rate of interest. The farm will be sold, half-cash. At this sale an opportunity will be afford to those who wish to offer anything for sale to do so. R. J. Wilde, auctioneer; J. Blott, clerk; John McCarghy, ownr. Remember the date—Wednesday, Novemebr 19th

We noted several men recently carrying small parcels, and exhibiting a large degree of anxiety in regard to the safe carriage of their burden. Under the impression that they had discovered a new kind of tobacco, we enquired "What have you got there?" After a glance up and down the street our friend replied in a whisper, "Sugar"—the first I've had for two months!

Personally we have little sympathy for a true-born Scotchman who cannot eat his 'porridge' without sugar—Have you?

SMALL SUBSCRIBERS MUST
BE MANY TO MAKE VICTORY
LOAN AN ABSOLUTE SUCCESS

Number Of Investors Shows
That Proposition Is Very
Attractive

PURCHASING MORE
SUBSTANTIAL BONDS
ON PRESENT ISSUE

Banks Will Gladly Lend the
Necessary Funds to
Buyers

TORONTO, Nov. 5.—E. R. Wood, chairman of the dominion executive of the Victory Loan, made the following comments on the success of the campaign to date:

The campaign is now practically half finished. The success to date has been due in large measure to the fact that investors who have so far purchased bonds have bought more than they did in previous loans. The number of subscribers is as yet below the number who bought bonds up to the same time last year. The fact that experienced investors, large and small, have subscribed early and have taken more bonds than ever before, indicates that they recognize the attractiveness of the Victory Loan 1919, as an investment, as well as appreciating the patriotic necessity of cleaning up our war obligations and maintaining Canada's prosperity.

The Total to Date.

The total subscriptions reported so far aggregate \$208,000,000, which is a satisfactory result for the time expired. It must be remembered, however, that this total includes a very large proportion of the big subscriptions available, and in order to make a success of the loan it

will be necessary, as in previous campaigns, that the medium and smaller subscribers shall come forward in very great numbers. It is only necessary for those who have not yet subscribed to the loan and who are able to do so, to subscribe on the relative scale as those who have already bought bonds, in order to insure success.

An Attractive Proposition.

The rate of interest carried by the banks, namely, 5 1/2 per cent., is the same as on the loans issued in the dark days of the war, all of which loans are selling at substantial premiums. As a matter of fact this new loan is particularly attractive from the standpoint of the small investors, and one of the gratifying features of the campaign has been the readiness with which the employees of industries have taken the loan, where they had the experience of buying previous loans. For instance, one institution, the employees of which last year turned in the splendid total of \$500,000, had no difficulty this year in securing from their 3,300 employees, of which forty per cent. are returned soldiers, an aggregate subscription of \$1,056,000, or an average of more than \$300 per man, and every employee of the institution is a subscriber. This result is attributed to the satisfactory experience of the workers with the previous loans, which enabled them to accumulate money which would not otherwise have been saved.

Buy to the Limit.

This is Canada's first financial war effort and it is not only good business but good patriotism for every Canadian to become the owner of a Victory Bond. Let every man and woman in Canada buy bonds to the limit of their present resources and prospective savings of the next ten months. The banks will gladly lend the necessary funds.

generally, produce a large tonnage considering the number of convenient manners for feeding, and finish cattle in numbers relatively large considering the number of acres under crop.

Water from the melting snow lying on the rye in the early spring is very injurious to the crop, and if the water lies on the land for any length of time considerable killing out results. Low spots in the field liable to hold water should be drained in the fall before freeze-up by running furrows to form channels for the water from the low places to some outlet that will drain it away.

The future ahead of the purebred live stock breeders of Canada is excellent if they steer the proper course. Two objects must be in view, quality and health. The one is as important as the other.

When baling from a stack the press should be set, if possible, so that the

hay can be pitched with the wind. This cannot always be done in cases where the stacks are built in a corner or against a fence. In setting for baling from a round stack see that the press is not set too close so as to prevent the feeding table from being put in place. With a long stack set the press midway of its length. This will reduce the number of men required to do the pitching. Very long stacks should not be baled at one set, but cut in two or more sections.

TO CARE FOR WOUNDED

Money From Victory Loan Will Be Used to Re-establish Soldiers.

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. Up to August last 3,909 soldiers suffering from this disease had been returned to Canada. These were placed in sanatoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained, and come under the head of capital war outlay. All of these men and some 20,000 others, disabled or ill, will be looked after with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

Credits Must Be Established for Sale of Surplus Products.

Success of Victory Loan 1919 Will Insure Steady Markets for Farmers.

It takes some six bushels of wheat to feed the average person in Canada annually. Roughly, therefore, the eight million people here consume about 50,000,000 bushels each year. But even in a poor year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash; and so Canada must find means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of her surplus grain the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your pay envelope may be always filled, as will follow the success of the Victory Loan.

Victory Bonds are the fodder that keeps the machinery of Canada's industrial world running at full speed.

RURAL MUNICIPALITY OF MANITOU LAKE, NO. 442.

Victory Loan 1919 Is Bridge Between War and Peace.

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it?

The Victory Loan of this year stands out as the bridge between war and peace. The war is over. Our boys won that. The reconstruction period is dawning and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of demobilization were heavy, and there is still much of it unpaid. Now that our men are back, let it not be said that we repudiated the debt for making them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, \$24,000,000 has been apportioned to finance these soldier-farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment Victory Bonds are eminent. Paying 5 1/2 per cent., selling above par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan 1919 ought to be oversubscribed, and all right-thinking citizens will do their utmost to see that such a result is obtained.

ARTLAND ARGUS

An unfortunate series of accidents on the line have occurred since our last issue, fortunately we are glad to say without any loss of life.

The East and West bound expresses were derailed in the regions of Winter and Biggar and caused considerable delay to the traffic.

An East bound freight also met with the same fate, at a western point last Friday, so we are informed.

The ancient festival of the Hallow'en passed off in Artland unnoticed, and free from all the quaint procall for in other places less staid.

Mrs. Smith, however, gave a most agreeable party to all her juvenile friends, and we hear that the important outfit, the Kids of Artland, had a splendid time.

It is unfortunate that Mr. Howells was unable to attend the local Grain Growers meeting last week.

However the proceedings on the above occasion ended with a hance.

which was marked, so an enthusiastic dancer confided to us by more "pep," than ever before remembered

They must have been "going some" for we have never attended a Brady dance that was not "pep" from the word "go".

"Pep's" a great word and convey's much expression.

Mr. and Mrs. Scholin of Fram were recent visitors.

It is to be hoped that the Victory Loan will turn out a grand success.

A prominent easterner recently seemed to exactly "hit the nail" on the head, when he publicly stated that, 'as a matter of fact, the loan is only a tax for the man who does not cubse'.

This is very neatly stating a fact.

Mr. and Mrs. Alan Michel weded in town last week.

We are advised by the Secretary that the returned men of the Artland and Brady district propose giving a social and dance to the subscribers of the recent testimonial to them.

A committee has been formed, (K. W. Coe Secretary) —The date for this event is Friday, the 28th of November.

The wives of the returned men will be responsible for the refreshments, and Mrs. William Wright is president of this branch.

It will please be distinctly understood that ladies will NOT bring baskets.

Any subscriber not receiving their invitation cards by the 23rd instant, are kindly requested to communicate

IT PAYS TO ADVERTISE OUR LITTLE ADS DO BIG WORK

with Mr. Ken Coe. as the committee earnestly desire that no subscribe should be omitted.

ROBERT JUKES

Card Of Thanks

I wish to thank the people of Artland, Brady and Manitou Lake Districts for the presentation watch which I received from them.

(Pte) Archie Bagley

Mr Mitchelson, missionary for the Westminster Church intimates that he would be pleased to visit any one who may be sick or in trouble of any kind.

His address is 'care of Mr A. Herbert, Chauvin.

Where It's Summer All The Time

This is the season when you are thinking of where you will spend the winter. You cannot do better than consult our Grand Trunk Pacific representatives. The railway and steam ship route to North Pacific Coast points and California is the new way and is without a peer. The ocean voyage through the quiet seas of the "Inside Passage" between Prince Rupert, Vancouver, Victoria, and Seattle is the finest ocean trip in America. Winter rates will be announced shortly. For information and literature apply to any Agent of the Grand Trunk Pacific Railway, or write W. E. Duperow, General Passenger Agent Winnipeg.

Manager: "You're late again young man. What excuse have you offer this time?"

Clerk: "The slippery pavements, Sir! Every time I took a step I slipped back two!"

Manager: "You did, eh! Then how did you ever get here?"

Clerk: "I started home again, Sir!"

NOTE TO SUBSCRIBERS: This issue is No. 286. (See date line on heading of front page). The number on the label indicates the issue to which your subscription is recorded paid. Beginning with issue 289, or December 3rd, we shall discontinue sending to those in arrears with their subscriptions. We are compelled to this because of economic pressure, and to save waste of newsprint paper. We do not wish to stop sending out a single paper, and rather than discontinue will accept a note from any who have not the ready cash to settle their account in full. Remember it costs you only the same as a dance and supper to buy the Chauvin Chronicle for one whole year.

ARMISTICE CELEBRATION CONCERT AND DANCE GIVEN BY LOCAL VETERANS WAS A BIG SUCCESS

Armistice day was celebrated in the Chauvin district by a concert and dance given under the auspices of our local returned men through their organization, the Chauvin Branch of the Great War Veterans.

The opening of the doors at seven-thirty found the crowds already ready and by eight o'clock the hall was filled. Latecomers experienced difficulty in getting seats. The steward Mr. H. Black was tireless in his efforts to obtain seating for the ladies, solving the problem by getting the boys to sit on the floor at the front.

Mr. G. M. Beattie opened the evening with a few brief but highly appropriate remarks, portraying the magnificent significance of Armistice day marking as it did the successful conclusion of the recent bloody struggle for our freedom in which eight million men had paid the supreme sacrifice, and in which Canada and the other Allies have more than done their part. Armistice day, he said, would not be complete without a reference to our un-numbered dead, for whom he requested the audience to stand in silence. This being done Mr. Beattie introduced Mr. A. S. Campbell, who had been asked to speak for four minutes on the Victory Loan, 1919.

The four minutes allotted to Mr. A. S. Campbell was all too short to deal with such an immense subject, but the speakers remarks were very concise, he referred to the loan as being the final act necessary to finish the great struggle and that it was the duty of all to contribute. The security of the whole of Canada was behind it and it bore an high rate of interest.

The programme was then followed out in a hearty, strong and efficient manner. The boys were handicapped by the absence of one of their principal characters, through sickness, Jeff Swan. The staging had been enlarged and suitable front erected with some good scenery, especially prepared for the occasion. The management are to be congratulated upon the degree of efficiency with which the scenes were changed and the items presented without delay.

The short sketch illustrating Camp Life and Training was of local authorship, it was full of interest from the start to finish, rich in humour and portraying both the lighter and heavier sides of the life of the soldier, not

alone in training, but in the trench and behind the lines.

After the opening selection by the Chauvin Orchestra, a beautiful tableau was presented when the curtains opened representing 'Peace' in the foreground sat Britannia with two children reposing peacefully at her knees, and surmounted by the angel of peace and guarded on left and right by members of the Canadian Overseas Forces.

Personelle: Misses Ellis, LaPlante, Parcels and Forryan.

The spud of recruits on the parade provided intense amusement to the audience, the irrepressible Vin Blanc being a source of considerable trouble to his superiors and incurring a large number of penalties. The trench scene was cleverly staged, night effects being accurately portrayed, and the company presenting the pathos of the night watch with its dangers and its thoughts of the dear ones at home during the the quieter moments and hearing in though mother's voice in her old home song. The newly arrived young lieutenant with his sole concern—his bedroll and his reckless display of lights in face of an enemy air-attack and the bringing in of an Hun prisoner were incidents worthy of mention.

The tableau 'In Flanders Fields' portraying the dead and their far-away graves on the battle fields was one which we feel confident none of those that saw it will forget, it represented so faithfully the tragedy of the sad scene and stirred tender thoughts as the sweet voice of the singer of the sad requiem was heard.

The estaminet scene was throughout a good representation of the vigorous recreation and playlife of the boys who are back from the line for awhile. The value of wound worth 'Blighty' was cleverly portrayed. The light refreshment, the harmless jrtations, the songs and good fellowship delighting the audience.

The concert was brought to a close by the whole troupe forming up on the stage and audience standing, all joining in singing the National Anthem.

After the concert the members of the Chauvin Womens Institute served lunch to all present. This proved a tremendous task, and the ladies of the Institute are to be congratulated on served the big crowd.

the splendid manner in which they After lunch followed the dance—a record dance at that—music numbers, length and enjoyment, why plenty of all of it for everyone. Yes the evening and the night was one of the best ever spent in the district.

Like Oliver Twist, everyone seems to want more occasions like this.

The following is list of those engaged in presenting the items on the program:—Mesdames H. Freeman, W. Mann, Misses Rodden, Perry, LaPlante McKinnon, Parcels and Forryan.

Also the Veterans R. H. Mann, C. Smith, E. Pitman, A. Tuey C. Mathie son, F. LaPlante, A. G. Sims, A. Herbert Fitzpatric, E. B. Atkins, C. Craig, G. M. Beattie, Lt-Col Rodden, J. A. Mac Kenzie, Ray Reynolds. In the orchestra Mrs Parcels, Messrs Saul, Nachter gale Allan, Atkins and Reynolds.

Ribstone Council Meeting: Minutes

Regular meeting of the Council held at Chauvin, on Saturday the 8th day of November at 2 o'clock in the afternoon.

There were present: Reeve Dallyn and Councillors Dumont, Ferguson and Sewell.

Minutes of last preceding meeting and of special meeting were read, and on motion of Coun. Dumont were adopted as read.

Secretary reported that the notices required respecting by-law No. 11 had been properly posted and advertised; and that there had been no objections. Reeve Dallyn then declared the Stock By-Law No. 11 now passed and in force and effect.

Letter was read from Mr. Ruf stating that if Mr. White and Mr. Dyer were needing to cross his land during the winter months, they were at liberty to do so if they would make gates. Secretary was instructed to advise the parties interested, and ask them to see Mr. Nicholson regarding a way through his land; so that this would be the only arrangement which could be made during the weather at present prevailing.

Secretary reported that the Surveys had been made for the New Ribstone School as requested by the Inspector of Schools.

The following accounts were presented for payment; and were ordered to be paid on motion of Councillor Dumont:—Chauvin Chronicle, \$62.30; Imperial Lumber Co. \$49.35; W. Mc Cluksey, \$1.90; Dept of Public Woks for surveys, \$60.00; and Galvin Lumber Co. \$10.25.

Mr. John Duncan appeared to protest against the survey between secs. 2 & 11-44-2-4; on the grounds that a roadway there was not necessary. Councillor Dumont moved that this be left over for the consideration of Councillors Sewell and Ferguson as a committee. Carried.

Councillor Dumont moved that the meeting be adjourned, to meet again at the call of the Reeve. Carried.

Chauvin District Has Subscribed Half Its Victory Loan Quota

Chouvin District has already subscribed \$7,500 out of its quota of \$15,000 for the Victory Loan 1919. Mr. Darby, organizer for the district on the G.T.P. north of Edmonton, addressed a meeting of the farmers, and urged them to do their utmost for this cause and obtained good results.

It is up to all who can possibly do so o help the Chauvin to gain its honor flag.

If you have as little as only fifty dollars idle for a few months buy a Bond then make your payments with the Bond—you get the interest. Canada gets the use of that money.

..The Monitor district, after experien-

cing three crop failures in succession, have subscribed their quota to the Victory Loan. They are wiseheads,—they appreciate that they will need assistance next spring, and are going the right way to get it. nd for the present the Bonds are as good as cash, being negotiable as cash; and in addition bearing interest whilst held.

FARMERS MUST WAKE UP

During the early stages of the present Victory Loan campaign it seemed that one class of the community which was showing reluctance in subscribing for Victory Bonds was the farming community, but it is hoped before the subscription lists close W1 before the subscription sheets close, this reproach will have been removed. There were similar indications last year but during the last few days of the drive, farmers' subscriptions came in very rapidly.

Anyone would be loath to believe that the farmers who of all classes of the community are most directly interested in a heavy over-subscription to the present Loan are apathetic. More than one-third of the proceeds of the last Loan was spent directly in the purchase of Canadian wheat and other foodstuffs, and resold to Great Britain and Allied countries on credit.

That is to say \$207,750,000 of the money subscribed a year ago went into the pockets of the farmer; and farmer would have been obliged to dispose of his surplus product at a

probable loss. The amount that will be spent during the coming year in financing credits to overseas purchasers of Canada's agricultural products is wholly contingent on the extent of the over-subscription to this year's lLoan. Thehefore if any farmer is desirous of seeing the present overseas market for his products maintained he will help to pile up the total of Bond subscriptions.

ALL HALLOWEEN PARTY

An All Hallow'en party and dance was given in the new Oddfellows Hall, by the entertainment committee in honor of those who so kindly gave their assistance in helping to make the opening of the hall concert such a great success.

The Hall was decorated with all the Hallow'en symbols, and a real live black cat was induced to stay for awhile just to keep the witches company. A goodly number of ghosts were also present. Chinese lanterns supplied the dim light so appropriate to the ghostly crowd, until the masks were lifted. Telling of fortunes and ducking for apples with other games and some songs and music helped to make a very pleasant evening. At twelve refreshments were served apples and peanuts were not forgotten.

The Hall was then cleared for rancing in which nearly all joined.

We may say this event was one of the most pleasant which has taken place in Chauvin.

LADIES COLUMN

Food Value Of Apples

In making plain the relative food value of the apple, Professor McAlpine, of Tasmania, says: Suppose an apple to be the size of a large breakfast cup; into this cup put nearly half a pint of water; stir into it half a teaspoonful of concentrated food like contained in an egg; of fatty stuff like butter, a little less than half a teaspoonful; of both cane and grape sugar, two tablespoonfuls; of skin and core, a little more than two-thirds of a teaspoonful.

The apple is laxative, tonic and nourishing. There is little waste; the skins and cores may be used in jelly.

Apples being rich in carbohydrates and low in protein, affording energy sources rather than-tissue forming material, should be served to supplement foods rich in protein, such as cereals, grains, eggs, legumes, meats and fish.

MOULDED APPLES

6 Tart Apples
½ cupful of Cold Water
2 teaspoonfuls Gelatine
2 Cupfuls sugar,
Juice of 1 Lemon
2 Cupfuls of Boiling Water
Soak the gelatine in cold water for five minutes. Make a sirup of the sugar and boiling water. Pare and core the apples and cook in the sirup; turn them often to keep them whole. When tender, remove from sirup and

arrange them in a serving dish; add boiling water to make one pint. In this dissolve gelatine; add lemon juice and strain over apples. Let stand until jely stiffens. Serve plain with whipped cream or custard sauce.

NUTTED APPLES

Pare and core tart sound apples. Boil until almost tender. Remove to a buttered plate and fill the cavaties with cocoanut. Stick blanched almonds about each apple. Bake, basting with sirup made of sugar and water and lemon juice. Top the cavaties with currant jelly when serving.

APPLE CAKE

2 Eggs, separated
1 Cupful of Milk
1 Tablespoonful of Melted Butter
¼ Teaspoonful of Salt
1½ Cupfuls of Flour
2 Teaspoonfuls Baking Powder
Separate the eggs and beat the yolks; add the milk, melted butter, salt, flour and baking powder. Beat in the stiffly beaten egg whites. Pour into a shallow baking pan; cover the top with slices of apples, dust with half a cupful of sugar and mace or cinnamon. Bake for half an hour. Serve warm, plain or with milk or cream

Cellar Stairs May Be Made More Safe

In so many houses the entrance to the cellar is somewhat dark, and to one whose eyesight is not the best it is quite dangerous. A strip painted with some light color, about four or five inches wide, showing where the first step starts would be a wonderful safeguard,

If The Bread Burns In Spite Of You

A fine grater is much better than a knife for removing the surface of bread or cake that is burned

Banana flour is the latest thing in Jamaica, the wholesale price of which is said to yeild such a fair profit that the making of the flour may be soon a regular enterprise

There came to our notice one of those kind acts of everyday life, which whilst not news in the ordinary sense of the word, and from its particular nature might even give offense, if recorded. But for all that, it does appear to the writer that it is a pity it is so. Because if we remembered, say a quarter of the kind acts, so frequently unobserved, and forgot more easily the mistaken and hurtful acts we all would have more enjoyment and appreciate each other better.

WEDDING BELLS

Last week F. Bangtson, of Roros went for a trip to Edmonton, while there he was united in marriage to Ingrid Johnson.

All the many friends of the couple wish them every happiness.

Ladies Auxiliary Westminster Church

**CANADA'S FUTURE
DEPENDS ON LOAN**

Steady Employment and Prosperity
Hangs on Victory Loan.

Canada's future prosperity depends to a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada counts on the trade with Great Britain and other allied countries to keep the flood of good times in the country.

The surplus products of the farm and the factory find their way across the seas. The revenue of the farmer and the manufacturer is dependent on this trade relationship being sustained. The employment of many hands depends on the orders that come to the firm. The pay envelope only comes with steady employment.

Great Britain and overseas countries are still desirous of continuing trade relations, but, overwhelmed with war expenses, they must be given credits for the time being. The farmer and the manufacturer must be paid for their products and manufactured articles in cash. Therefore, Canada must finance the proposition to keep the tide of commerce coming this way. But in order to have the money on hand to do this great thing, Canada must borrow from her people.

The Victory Loan offers bonds to subscribers paying 5½ per cent. interest. The guarantee behind the bonds makes them an absolutely safe investment. Victory Bonds are accepted as collateral at any bank, and can easily be turned into money at a profit. It is then to the interests of every Canadian to subscribe for all the Victory Bonds he can, for it is profitable, it is patriotic, and it is necessary for the continued prosperity of the country.

CANADA NEEDS MONEY

War Expenditures Still to Be Met
From Proceeds of Victory Loan.

The war is over and won; but Canada's main expenditures for war will not be complete until well on into 1920. The \$610,000,000 raised last year has all been spent, \$400,000,000 having been largely devoted to soldiers—to maintaining them, bringing them home, providing the necessary medical services, training them. Most of the balance of the loan was lent to Great Britain to enable her to buy our surplus products. And money is still necessary—for soldiers, for providing markets, for our surplus products, for the needs of reconstruction. And that is why another Victory Loan is necessary. Canada still needs money, and needs it badly.

A Good Investment.

Speculation is one thing. Investment is another. The majority of citizens want an investment, not a speculation. And they want a safe investment. Victory Bonds fill that requirement as does no other investment. Because behind every bond there is the national wealth of Canada—a wealth so great that it staggers the imagination.

Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed \$15,000,000,000 compared with \$13,776,000,000 in 1918. And the year's total clearings should be three times those of 1909.

Must Subscribe More.

Dividing the people of Canada into three classes—the comparatively poor, the moderately wealthy, and the very wealthy—it would seem that if contributions to the Victory Loans constitute service to the nation, the moderately wealthy class is hardly doing its share. Of the money subscribed to the Victory Loan 1918, two hundred and seventy-one million dollars were in bonds of \$5,000 and under, ninety-four millions in bonds of between \$5,000 and \$25,000, and three hundred and one millions in bonds of \$25,000 and over.

Echoes From Edgerton

What has become of the old fashioned weather man who used to manufacture the weather at Medicine Hat. Surely he must have become a revolutionary (to be in the fashion); and horrors! he has revolutionised our Indian Summer.

Topic of conversation (to the absolute exclusion of all others) with the different dealers here—Have you got any coal?

Life is just one maze of trials, what with scarcity of coal scarcity of sugar and last but not least scarcity of matches, we are finding it hard to exist.

We mentioned some time ago in this column of our amateur Dramatic Society. Now we have great pleasure in announcing that this Society is working hard and rehearsing a brand new play entitled "Why Smith Left Home." This is a very ambitious piece of comedy and when our artists have their work finished and present their play, we can assure you of a great treat. Our genial Dr. Smith as critic, is all that need be said of the painstaking method by which it will be produced. The leading roles by Mr. Kennedy and Mrs. Newell are in very able hands as has been demonstrated by local audiences before. General and Mrs. Billetdoux are capably taken care of by Mr. Boyd and Mrs. Sawyer. The multi-millionaire Guggenheim is in the hands of C. Bransgrove, the Major by E. Burton, the Waltons and maid by E. Spornitz. Miss Haggerty and Miss Newell, the secretary of the club, Miss Cox, will play the role of Miss Smith, while the Irish cook is in the capable hands of Miss Jean Smith. All have been selected for their different parts with great care and we can rest assured that they will, each and every one of them, do justice to their respective parts.

We understand that there is a not inconsiderable sum to be paid for permission to put on this play and we believe that the Society will be open for dates in the neighbouring towns to help the exchequer so that they can make it self-supporting, and communications sent to Miss Cox, of the Bank staff will receive attention.

We are pleased to announce that Mrs. Murdock is progressing favorably.

Miss Maybe, of the Bank staff, was taken to Edmonton for an operation. She was accompanied by Dr. Smith. We sincerely hope that she will soon be among us again.

A very successful "At Home" was given by the Oddfellows of this burg on the 30th. October, which was well-attended. All agree that it was a swell time.

If we can keep from freezing until next week we will try and make more echoes. Last week our lead pencil was nearly frozen.

We are in business for your health,
The Chauvin Pharmacy

**Don't Miss This
Entertainment**

A rare treat is in store for us all next Thursday at the I.O.O.F. Hall. The splendid entertainment offered by Mr. Grossmith is something seldom heard in these parts. His reputation is firmly established both "AT HOME" and abroad, and his presence is an honor to our town, which the public will not be slow to appreciate. "Be Gone Dull Care" Leslie Grossmith, the Laugh Extractor is with us.

The Varsity Duo of musicians who accompany Mr. Grossmith is an alliance of young men who will charm their hearers with beautiful music on the Violin. Their number are well chosen pieces of a popular and attractive nature. These young men will be under the supervision of Mr. Grossmith himself, and after the concert, they will furnish the music for the dance.

Every body should avail themselves of this exceptional opportunity as good and wholesome entertainment as is likely to be secured this season.

The Mason held a meeting last Thursday evening.

Husband: "Have you done your best to economise this month, Ellen, as I requested?"

Wife, brightly: "Oh, yes! I spoke to the grocer, the butcher and the landlord, and got them to put off sending their bills till next month!"

Canadian Pacific Railway Lands: Call in and see the price list: 20 years terms, one-tenth cash payment with application; no further payment of capital until the fourth year. Interest at six per cent per annum. If the necessary improvements are executed in the first year, the interest will be reduced to two per cent for two years. This is a good proposition, and these lands are being rapidly absorbed. Do not delay until too late, as these lands will be turned over again at a big profit.

Hudsons Bay Lands. I have the latest prices on all the holdings of the Hudsons Bay Company and am ready to quote you at any time. The terms are:—8 equal payments with interest at seven per cent per annum. The prices are now down to a very low figure, and these lands are sure to turn out to be a good business proposition. Values will soar again, and the H.B. Lands are mighty good buying at present quotations. That quarter alongside your own will make a fine addition to your farm; and, believe me, it is better to be in on the ground floor when you buy.

Loan Companies have all kinds of Money to Loan on Improved Farm Property, First Mortgage. I am advised by one of the most reliable firms that their great concern at the present time is to find sufficient applications to take up this surplus money. Interest at eight per cent. Five or ten year terms. No commissions charged to the Mortgagor; and the costs of obtaining same were never so low as at the present time. If you are interested, call or write; but remember that there is no shortage of cash for this purpose.

CODE BROS' GARAGE, CHAUVIN

The Secret Of Failure

Even in Grain Growers' work and in the working of local associations there are failures. Honesty demands they fail, and some it would seem are scarcely aware of the cause. One or two concrete examples will, perhaps help by way of warning against certain dangers.

Here is a local secretary, a middle-aged, good-hearted, easy-going man who has never been known to harm any one all his days. About the first of October he received a letter asking him to get into touch with the president and directors, and if possible to arrange for a board meeting on the 7th to plan out a special drive for the 15th. Some posters were to be sent to him to be used in advertising, and some pamphlets for use in the drive. A few days later another communication reached him with further details, and enclosing a personal letter to each director. Later a third letter came with a special communication for a local meeting to be held on the 17th. The secretary did absolutely nothing in reference to any of the requests, suggestions or plans. In that association the secretary is the secret of failure, and if the local does not replace him by a man with a soul and a conscience, at their annual

meeting—well, they need a jolt.

Here is a local president. Early in the month of October he was called up by the secretary in reference to the drive. He thought for a moment and then remarked, "Oh, it's too early. Some of our people are still threshing. We might just as well decide that we can't touch it now." And so, off-hand, with no consultation with the board, no attempt to see what might be done the whole thing was shelved and nothing done. In that association two men are mainly the secret of failure, and their failure is culpable indifference which amounts to practical treason to the cause. They have "fallen down" on the job, and should be dismissed to give place to honest men.

Here is a local board. They talked over the proposed drive informally without any meeting, and decided to put off the drive canvass till after the rally meeting, for which they planned to get a "speaker." The speaker came and "spoke." Following the address it was naturally expected that the board would bring forward some plans for going forward with actual extension work. It was expected that there would be a practical facing of the problem: How can we organize locally to get every man and woman into the work? What day can we set for the initial canvas? Who will supply the cars? Who will be the canvassers? Instead of this the chairman remarked, "Well, it's rather late and I do not suppose there is anything more we can do to-night"—and nothing was done. Next morning the good chairman remarked that he regarded the meeting as a success. People were interested and talking about it. But he was utterly oblivious of the fact that through his doing nothing suggestion and the utter lack of leadership, a great opportunity had been missed and nothing done. The secret of failure—well there you have it in a man who, as somebody remarked, was put in office when the association was formed and kept it dead ever since.

It becomes clearer every day that the election of local officers who lack sympathy, foresight, gumption and purpose to do their whole duty, is one of our most regrettable handicaps. The whole blame cannot be placed upon the men themselves. It is up to the locals at all costs to get rid of fossils and elect live men, who believe in the movement and will lead it forward.

Local Notes of Interest

On Monday 4 cars of cattle were shipped to Edmonton, by the U.G.G. and 2 cars are being shipped by them t the same place on Wednesday.

We regret to record that John Anderson is very sick.

The Chauvin High School is now being conducted in the garage building next north of the Killarney Hotel. This is rendered necessary as the Separate school will not be running before the end of the year.

Orders for the Merchants Dray Line may be phoned to Phone No. 10 and they will receive prompt attention.

We are pleased to notice that, in the list of successful candidates who presented themselves for examination at the University in September last, as published by C. F. Adams Esq. K.C. Secretary of the Law Society Of Alberta, the name of Tom Harker Saul of Chauvin appears as having been granted full intermediate standing.

The future value of a Victory Bond cannot fall. It's sale price is controlled by a committe for that purpose. By this means men of capital are unable to depress the price for their own profit, and on the other hand are of-

ten compelled to purchase. Many of our agitators sem to be unaware of this operation going on from day to day: or if aware of this conscription of wealth, choose for their own purposes to ignore this important fact.

War Bond Interest Coupons and Cheques Cashed Free.

The Merchants Bank will cash all War Loan coupons or interest cheques when due, on presentation, without making any charge whatever for the service.

If you have not a Savings Account, why not use your interest money to open one with This Bank?
